

## ENSTO INDIA PVT LTD

### QUALITY POLICY

Ensto India is a 100% subsidiary of Ensto Finland Oy, an international, electrical technology company.

Our aim to build a better society by improving energy efficiency and focusing on sustainable development.

Our products and services are targeted for a long lifetime and a low lifecycle impact on environment.

We work for customer satisfaction and focus on customer care. In customer relationships, we aim for long term partnerships.

As a part of continuous improvement, we set targets, measure the progress on regular basis and learn from the feedback.

We follow Ensto values and policies and commit to follow respective legislation, regulations and other applicable requirements.

Everyone is responsible on the quality of his/her work and is committed to our management system.

**Ashok Kaushik**
